

SERVICES

There are three fundamental principles to great everyday style: organization, versatility, and creativity. I provide a wide range of services for men and women that emphasize these principles and help you discover a new, confident identity. Fees are always based upon your needs and budget. Wardrobe Organization

While a lack of choices can be an issue, too many options is an even bigger problem. A cluttered wardrobe, overflowing with articles of clothing you don't use, can be imposing and make you feel stressed. I can help you take control and boost your confidence/send your confidence soaring. We begin with a one-on-one consultation to determine your specific needs. We will then take stock of the items in your closet and evaluate each one based on functionality and how it works for you. Forgotten pieces will be rediscovered and dated outfits will be transformed through minor tailoring adjustments. Once organized by purpose and functionality, you'll learn how your wardrobe can work for you. You'll feel more efficient, more confident, and always look your best.
